DETAILED ACTION

Response to Amendment

1. The amendments to the claims have been entered. Claims 1, 2, 4, 15, 16, 18, and 29 are currently amended and claims 3, 17, and 30 are currently cancelled.

Allowable Subject Matter

2. Claims 1, 2, 4-16, 18-29, 31, and 32 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1-3, 16 and 17, Schultz et al. disclose that the training data is of a limited amount, but are silent as to the details of how the second decision network is generated from the first decision network. Furthermore, there is no prior art of record that would suggest specifically how to generate the second decision network from the first recognition network, where the first and second decision networks are phonetic decision trees.

Regarding claim 29, creating from a first speech recognizer of a first language, with training data from a second language, a second speech recognizer that is able to recognize at least the first language *and* the second language is not disclosed in the prior art of record and would not have been obvious to one of ordinary skill in the art at the time of invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
